PADUCAH, KY., FRIDAY EVENING, APRIL 15, 1910.

TEN CENTS PER WEEK

DETECTIVES ARE INVESTIGATING I. C.'S SCANDAL

Chicago Record-Herald Says Car Repairing Case is Under Probe.

Employees Said to Hold Stock in Concern.

THAT GOT COMPANY'S BUSINESS.

The Chicago Record-Herald says:

Despite repeated denials by President J. T. Harahan and other high officials that conspiracy exists through the workings of which the Illinois Central railroad has been defrauded out of hundreds of thousands of dollars, it became known yesterday that for months detectives have been conducting an investigation with astounding results. It is also said on good authority that important arrests are expected within a short time and that several high officials may be caught in the net.

It is said on good authority last night that the loss to the company because of the conspiracy may reach \$1,000,000, when the investigation is included. It is intimated that the real cause of the investigation was the fact that reports reached President Harahan to the effect that Henry C. Ostermann, head of the Ostermann Manufacturing company, which holds large contracts for repairing cars for the company, was causing a sensation in certain cafes by spending large sums of money and using \$50 bills to light his cigars.

President Harahan is quoted as saying at that time: "I see in the papers that Ostermann is lighting cigars with bank notes of large denominations, and think it is time we look over our business dealings with the company he represents." Report has it that it was then that W. J. Burns of the national detective agency was consulted and fifty or more detectives put to work making an investigation.

The developments to date are:

Positive proof that the company has been mulcted out of large sums of money.

Persistent rumors that the conspirators are not common employees, but are men in high positions and that the alleged crooked operations had to do with the car repairing department.

Information that the guilty men are known, together with their methods of defrauding the company and that arrests are expected soon.

The making public of the fact that Mr. Burns of the detective agency just returned from Memphis and that the investigation covered the entire system of the road.

It was known some weeks ago that

(Continued on Page Four.)

GRIFFITH

CASE IS AFFIRMED BY COURT OF APPEALS.

Sensational Suit That Originated in the McCracken County Court.

The appellate court yesterday affirmed the decision of the McCracken circuit court in the Gilbert-Griffith will contest, that the will offered for probate by Attorney M. E. Gilbert was not genuine. This closes a hard fought case from the county court, and one which excited much interest.

In county court in 1908 Attorney M. E. Gilbert offered to probate a will of Mrs. Alma Griffith, wife of the late W. Y. Griffith. Evidence was introduced that Mrs. Griffith was ill on the day that the will is alleged to have been signed in the office of Attorney Gilbert, and the genuineness of the signature was attacked. By the terms of the will Gilbert was named as executor of the estate and guardian of the two children, and was to receive ten per cent of the estate. In county court the will was rejected, and an appeal to the McCracken circuit court was taken. After a bitter trial the circuit court sustained the decision of the county court, and appeal was taken to the appellate court, which affirmed the circuit court.

Lightning struck the home of J. W. Engle, in St. John's vicinity, last night, but did little damage. The lightning followed a valley in the roof and passed down through a cistern, cracking the walls and damaging the cistern. Nobody was hurt.

A large tree on Tennessee street near South Third street was blown down, but no damage was done.

Secretary of the Manufacturers' Association Arrives in Paducah to Take Hand in Strike Situation

President Baker of Leather-Workers' Union Will Deliver Address at Open Meeting Tonight.

Presence in the city of Mr. Henry Othuher, secretary of the National Leather Manufacturers' association, adds a new factor to the local strike situation, which may complicate matters or clear up the situation. Only time will tell. This is the organization to which M. Michael & Brother belong.

He registered at the Palmer House today and met Mr. Michael this morning. During the day there will be conferences between Mr. Michael and President A. M. Baker, of the International Leatherworkers' union. Tonight at 7:30 o'clock President Baker will address an open meeting in the Owls' hall, on North Fourth street, to which all friends of organized labor are invited.

This morning President Baker said: "I hope we will be able to settle the local strike before I leave. I am glad to say that in this strike, which is nationwide, we have not had a single report of disorder. That is something we will not stand for. We took in over 900 men before the strike, and command the situation."

The demand is for an eight hour day and 15 per cent increase on piece work.

Last night a conference between the national president, A. M. Baker, members of the local union, No. 2, and Mr. Mohr Michael, of Michael & Brother, was held.

This morning at 9 o'clock the members of the union held their regular morning meeting, at which President Baker was present. This afternoon the members of the union met with President Baker and Mr. Michael for the purpose of reaching an agreement if possible.

CAPTAIN HARRY DAVIS' CASE IS POSTPONED

Smithland, Ky., April 15. (Special)—The trial of Captain Harry Davis, of the steamer "Liberty," charged with interfering with an officer in the discharge of his duty, was continued until the next term of court by the commonwealth. While under arrest a year ago, Captain Davis was in the custody of Sheriff W. D. Bishop, when the "Liberty" was untied and she steamed down the river opposite Paducah while a pitched battle ensued between Sheriff Bishop and his deputy and the crew.

It was known some weeks ago that

(Continued on Page Four.)

ANOTHER CLEW.

Can it be that the name of the murdered boy is Coy McHaffey? This afternoon Wallace Keebler brought to Sheriff George Houser and Detective James Collins a piece of paper with the above name scribbled on it in several places. He says that he saw the dead boy writing on the paper Saturday. Since the murder Mr. Keebler found the paper, and it is believed that the boy scribbled his name on the paper. The paper is a circular letter sent out by the Union Trust company. No address is on the paper.

Paducah Has Best Streets and Dairy

Paducah profited by the visit of Mrs. Caroline Bartlett Crane, of Kalamazoo, Mich., not only through the consequent stimulus to sanitation, but by the advertisement as well. Mayor Smith has received a communication from a woman writer, who said Mrs. Crane told her Paducah has a model dairy, good slaughter houses and remarkably clean streets. It is probable that President Richard Rudy, of the board of public works, will send photographs as she requests and photographs of the dairies and slaughterhouses also will be forwarded.

The writer, Mrs. Helen Bennett Maupin, of White Plains, N. Y. says: "Mrs. Caroline Bartlett Crane, of Kalamazoo, Mich., has advised me to write to you for assistance with regard to an article I am writing. I am anxious to illustrate cities having good methods of street cleaning, milk and meat supplies. Mrs. Crane assures me that you have all three, and

SUSPECTS HELD AT COUNTY JAIL TEN DAYS LONGER

Both Are Sentenced in Police Court on Charge of Vagrancy.

Generally Believed Drunken Row Was Cause.

VICTIM'S MOTHER MAY COME

Developments in the murder case today were the sentencing of the two suspects, Bert Guire and Albert Hale, to 10 days each in the county jail for vagrancy, and the receipt of a letter from Mrs. Lum Thompson, mother of Luther Thompson, supposed to be the victim of the murder.

Chief of Police Henry Singery has succeeded in locating Mrs. Lum Thompson, mother of "Red" Thompson, at Birmingham, Ala.

This morning he received two letters from her, stating that she had read newspaper accounts of her son's death here. Both letters were dated April 13 and one indicates that "Red" Thompson had money as she said she supposed he had enough to pay the burial expenses.

Mrs. Thompson said she was a poor woman and did not have means to come to Paducah. She asked that the body be turned over to the undertakers and given a decent burial.

In order to have the body positively identified the county officials here may send Mrs. Thompson a railroad ticket and pay her expenses to Paducah and return. If she identifies the corpse as that of her son the body will be buried here.

Neither letter said anything concerning the whereabouts of the murdered boy the week before.

Mrs. Thompson asked for full details of her son's death. She resides at 127½ South Twentieth street, Birmingham, Ala.

Held as Vagrants.

This morning in police court Bert Guire and Albert Hale pleaded guilty to charges of vagrancy (in not working and in sleeping in railroad box cars). They were sentenced to ten days each in the county jail and were immediately handcuffed together and taken back to begin their sentence.

At the end of the sentence both will be liberated unless the circuit court grand jury indict either or both for connection with the murder of the Thompson boy. The court room was crowded when Judge Cross opened the session this morning but no questions were asked the two boys. Their charges were read and when Guire was asked concerning it, he replied: "Guilty, judge, in that way." Hale pleaded guilty immediately.

The theory that Thompson was killed just before dawn last Sunday morning in the woods on the Pool road by reason of his body being warm when discovered at 9 o'clock, is substantiated by a statement made by Mrs. Lizzie Green, who conducts a bench on the city market. Mrs. Green lives just beyond the grocery of A. T. Langley in Littleville, and she brings her garden products to Paducah early every morning. Mrs. Green said she was up between 3 and 4 o'clock Sunday morning and her attention was attracted to three young men going down the Pool road in the direction of the Union station. She said she was unable to describe them on account of the darkness, but says one of the trio appeared to be drunk. One of the others had a stick or something in his hand and was driving the drunk boy on. The third was following. Their voices were raised and this is what attracted her attention. She was unable to tell what they were saying. When Thompson's body was found it was slightly warm, and according to Acting Coroner C. W. Emery and Undertakers Nance & Rogers, he could not have been dead over three or four hours when found at 9 o'clock.

Detective Collins refuses to talk about the case, but admitted that there was some protest against Hale or Guire.

The circuit court grand jury convenes next week. The sentence given Guire and Hale will expire on Sunday, April 24.

Drunken Brawl.

The youth, whoever he was, was killed Saturday night during a drunken brawl in a field along the Pool road. This is the generally accepted theory concerning the murder, which was discovered Sunday morning. A trio, of which the dead boy was one, seen going that way with plenty of whisky, and an empty whisky bottle found near the scene of the crime, lend color to the theory.

Earth Yawns and Engulfs Houses in Cities of Costa Rica--Many People Killed and Property Lost

CITY'S DEMAND OF FRANCHISE TAXES TOTALS \$17,739.96

Some Corporations May Resist Effort of City to Collect From Them.

Southern Express Company First to Pay.

MOST OF THEM THREE YEARS.

It is probable that some law suits will be required to settle the back assessment of franchises in Paducah. One or two of the corporations indicate, either a desire to resist payment or to compromise with the city. Treasurer Walters, who has the matter in hand, declares he cannot compromise any of the items. The aggregate amount which the city has notified corporations they owe, is \$17,739.96. This \$1.85 on the difference between their assessment and what they have paid.

The Southern Express company is the first one to pay up, its tax for five years being \$55.28.

It has been found that in many cases the city having exercised its right to assess franchises up to three years ago, nothing could be collected for 1905 and 1906, while in the cases of the Heating company taxes on its franchise for 1905 and 1906 only are to be collected, as there was no assessment made those years, and the claim is for omission. The Home Telephone company's assessment is for 1908 and 1909 for omissions.

The Western Union Assessment is for 1905 and 1906, when there was no assessment, the company contending that by compromise of a lawsuit, the city agreed to accept a pole tax of \$1 in lieu of franchise and license. It paid before and since, and the city insists on the payment for those two years.

The American District Telegraph company's assessment is for five years, as is the American Express company and the Paducah & Cairo Packet company. The City Water company, Paducah Traction company and Paducah Light and Power company are for three years.

The amounts claimed by the city are:

City Water Co.	\$2,358.75
Paducah Traction Co.	5,696.41
Paducah Heating Co.	432.50
Paducah Light & Power Co.	7,528.48
Western Union	155.86
American Dist. Tel. Co.	289.26
Home Tel. Co.	987.16
Am. Express Co.	43.91
Southern Express Co.	55.28
Paducah & Cairo Packet ..	192.25

SHERIFF JORDAN WINS IN CALLOWAY CONTEST

Murray, Ky., April 15. (Special)—Sheriff Jordan drew first blood in the contest in circuit court today, when Judge Hanberry sustained his demurral to the petition of Holland Jordan, Republican, defeated Holland Democrat, at the election, and Holland contested. The court rules that Holland has no ground of action.

Odd Fellows Band

Steps are being taken by the Odd Fellows' lodge of Paducah to organize a military band of 30 pieces. The annual reunion of the Ohio Association of Odd Fellows is to be held April 26 at Golconda, Ill., and they hope to organize the band for that event.

ISEMAN-CURTIS CASE AFFIRMED ON APPEAL

Frankfort, Ky., April 15. (Special)—The appellate court today affirmed the decision of the McCracken circuit court in the suit of Lee Curtis against Mike Iseman. Curtis is a farmer of Carlisle county and was in the wagon yard of Iseman in Paducah. A whip belonging to Iseman was stolen and Curtis alleged that Iseman damaged his standing by the words he used in reference to it, and sued for \$7,500 damages. In the circuit court the verdict was found for the defendant.

Washington, April 15.—Officials expect to take the census, begun today, the shortest on record. The first round of the count is due in five days. The first count is expected to be within 100,000 of the total.

What Sandy Said.

A group of Scotch always were met convivially at an Ayrshire inn one cold evening last December. The conversation turned upon pronunciations.

"Now, I," said one of the barristers "always say neether, while John here, says nyether. What do you say, Sandy?"

The hot tipple had made Sandy doze, and at the sudden question aroused and replied, "I? Oh, I say whisky."—Lippincott's.

The canal theory of Mars is opposed by the Swedish savant, Arrehous, who thinks the phenomena observed are huge clefts in the surface of the planet.

Now For The Youngsters Wash Suits.

The wash suit is an ideal garment for those boys of yours, and the new outing suits, with the short sleeves and knee pants are the right ones, too. Drop in and see the many pretty patterns, the superior workmanship, and good stuff them.

Too, we want you to see those all wool, double breasted knickerbocker pants suits we are featuring this season at \$4.90. They are worth much more.

News of Theatres

Those real funny, clever boys, Bailey and Austin, have at last come into their own and when "The Top O' th' World" is given at the Kentucky theater on Wednesday, April 20, it will become apparent that their vacations have not been devoted to

Idleness.

Among the score of native and foreign troupes engaged this season for the Greatest Norris & Rowe circus there are three troupes that stand out with prominence by reason of their number and the startling feats they accomplish in mid-air and upon the ground. These troupes are The

Great Moore Family of aerial acrobats; the Flying Dacomas and the Six Waltons. The two former troupes do all of their work in mid-air.

To please, to make happy, to give to all the happiness desired in life, should be the true aim of all. This has been the happy result attained

by Pixley and Luders, authors of "King Dodo," the comedy opera hit of recent years, which comes to the Kentucky theater on Tuesday, April 19th.

"For a whole year I turned my back on drink." "You noble man; what were you doing?" "Driving a brewery wagon."—Buffalo Express.

THE NOAH'S ARK STORE Makes an Interesting Announcement

We are making an announcement which we feel will be of deep interest to the ladies of Paducah and vicinity—the opening of our NEW READY-TO-WEAR DEPARTMENT.

The display at present, features some exceptionally attractive models of Linen Suits and Lingerie Dresses which are well worth seeing—particularly when prices are considered. The Noah's Ark Store, in opening this new department, does so with the expectation of handling ready-to-wear goods on the same narrow margin of profit as in all its other departments and you will invariably find here substantially lower prices than you would have to pay elsewhere for equal quality. COME SATURDAY AND SEE THE DISPLAY.

As an inducement for you to come Saturday and see the display, we feature the following:

In Wash Suits a very special model, which comes in all the new shades, made of good quality linen, coat trimmed in bias straps of same material and pearl buttons, skirt made the new pleated panel effect, extra good value for..... \$3.98

One model made of linen, in all the popular shades, with collars and cuffs braided, semi-fitted coat, skirt made the new over-skirt effect. We will have..... \$5.98 no competition on this number at.....

One model, made in poplin, plain semi-fitted coat, trimmed in pearl buttons, skirt trimmed in the new pleated panel style. Price..... \$6.50

Long Kimonos, pretty Persian patterns, with wide satin facings, \$2.00 values for..... \$1.48

One lot of splendid, \$1.25 Lace, Embroidery and Tailored Shirt Waists; very special for Saturday at..... \$98c

One lot of short Kimonos, in dainty figured Lawns; surprising values Saturday at..... \$1.5c

Ladies' one-piece House Dresses, in black and white and blue and white check, Saturday for..... \$1.19

1 case, 60 dozen, Ladies' thin Gauze Hose, black and tan, regular 19c values, all sizes, 8½ to 10, Saturday 2 pairs for 25c or..... \$12½c

Choice Saturday of two lines of sturdy Children's Ribbed Hose in black, all sizes; one heavy and other medium weight. Saturday only 3 pair for..... \$25c

This hose sells regularly for 10c and 15c.

Extra Values in the Millinery Department

As an especial feature for Saturday we are showing an extensive line of tasteful Trimmed Hats at \$1.50, \$1.75, \$1.98 and up. We are also showing an attractive new line of Children's Hats from 50c up.

SPECIAL

\$1.00 Untrimmed Hats, in white, burnt and black at..... 50c
Auto Veils, all the new shades, full 3 yards long..... \$1.48

Every Grey Package Contains A Bargain--"Guthrie"

A dollar will buy more here than a dollar and a half will at the ordinary store. Friday and Saturday will be banner bargain days. The entire store is full of light summer goods--the kind you want--the Guthrie kind. The prices will surprise you--you will never find good goods cheaper. Read on to your benefit.

SILK SALE

This remarkable sale of Silks will afford you the opportunity of buying high grade Guthrie silks at prices very ordinary. This offering includes all kinds, Poulards, Messaline, Taffetas, Pongees, etc. Here are a few of the bargains:

FRIDAY, APRIL 15.

Daily Thought.
Kind words heal friendship's
wounds.—French.

The Big Stick is now operating on
the ball diamonds.

The Caldwell County News has
reached the limit. It says the cost
of living is prohibitive.

Louis Dodd, editor of the Lyon
County Herald, has been appointed
guard at the Eddyville penitentiary.
Louis should be warned against
lending any of his salary to the other
First district editors.

President Pro Tem Conn Linn, of
the state senate, appeared before the
Franklin county grand jury to testify
in regard to alleged bribery at
Frankfort; though it is not suspected
that it was a member of the legislature,
who robbed Senator Linn at
the Seelbach.

The Murray Ledger says: "A
number of the western Kentucky
papers have contained a news item
the past few days purporting to be
from Calloway county to the effect
that a W. H. Sullivan had received a
note signed 'N. R.' warning him not
to grow a crop of tobacco, stating
that Sullivan was a citizen of this
county. We regret that such a re-
port is given publicity for the reason
that it is absolutely false."

We call Ed Leigh's attention to
the fact that this story didn't emanate
from The Evening Sun office.

FOOLING OURSELVES.
The newspapers that talk about the
Democratic party or the Repub-
lican party fooling the people wield
little influence: in the first place, be-
cause such an assertion is silly, and
in the second place, because every
member of the party accused takes
the assertion as personal. The na-
tional Republican party numbers
considerably more than half the vot-
ers of the whole nation, and to de-
clare that a majority of the people
have been "fooling the people" is to
condemn majority rule. As a matter
of fact, the Republican party couldn't
be accused of fooling the Democrats;
it must be fooling the Republicans,
if it is fooling anybody, and thus we
have the charge that a majority of the people
are fooling themselves. The national
Democratic party consists of
nearly half the voters of the nation.
It hasn't fooled anybody unless it
has fooled its own members, who
vote that ticket. If those papers,
which make such assertions, mean
that certain politicians of these par-
ties have fooled the voters, they
should exercise nicer discrimination
in the selection of words, and they
would find therein a clarity of rea-
soning and expression, that would
change their whole attitude toward
party government.

LOOK AHEAD.

We suspect that the "Back to Jefferson" cry is actuated more by the
fact that Jefferson won, and a desire
to find out how he won, than by a
desire to apply the principles underlying
Jefferson's policies to present day problems. But we can assure
those who talk about "Back to Jefferson" that the great statesman won
by understanding his own times and
interpreting the spirit of it in his
policies.

We may lack some of the harder
virtues of that early day; but in
many other respects we have pro-
gressed, and, certainly the practical
political methods of Jefferson's times
would be abhorrent to our sense of
right today. We have problems
thrust upon us, that, perhaps, Jefferson
did not dream of. The world is
not standing still, and we are swept
along with the development, whether
we are in accord with its spirit or
not. Jefferson and his contemporaries
availed themselves of the wisdom of
their predecessors and were warned
by their mistakes, but Jefferson had
questions to decide in his time, which never confronted any
other statesman under like conditions.
Where he failed to find pre-
cedent, he made precedent.

This country has expanded in its
functions and also in its capacity.
The student of history learns much
from Jefferson of the fundamental
spirit of our institutions, and one
thoroughly familiar with that great
statesman's policies and principles, unconsciously will go "Back to Jefferson"
for guidance in matters of state; but, if he himself would rank as a
statesman, he must keep ever in
touch with the spirit of his own times
and his eyes to the course. A helmsman
for the ship of state, who keeps
his eye on the chart instead of the
course, will certainly hit one of the
rocks he finds charted. We want
helmsmen, who have thoroughly
checked their chart and know where the
rocks and the shallows and the bars
are located, so that they can use their
vision to avoid the dangers, not to
find them.

SUFFRAGETTES.

It is said suffragettes will send
their regrets to President Taft for
hailing his anti-suffrage sentiments
last night. If President Taft had
sent his regrets when he was invited
to speak, this would have been
avoided. A man should either shun
suffrage conventions or be prepared to
lie like a gentleman. It offends
those, who expect the extension of
popular suffrage to women to care
all social ills, to be reminded that
there are bad women as well as
good women, and that the bad
women will vote, whether the good
ones do or not. That was the point
made by the president, and he left
the inference that when the time
comes and all women are sufficiently
interested to assure their use of the
ballot, the suffrage will be extended
to them. Those, who hiss senti-
ments antagonistic to their views,
indicate a lack of restraint that
doesn't speak well for their ability
to discuss the case.

Employees Hold Stock.

In just what manner the fraud
was committed has not been learned,
but it is said to have been by means
of false bills, which were permitted
to go through the auditing department
either purposely or by carelessness
on the part of certain employees
and officials. President Harahan, it
is said, permitted 24,000 "bad order"
cars to pile up, and there was no
time to wait for the repair in the
shops of the company. It was decided
to "farm" out a large portion
of the cars, and it is understood 12,000
were sent to the works of the
Osterman Manufacturing company,
for repairs. Soon it was agreed that
no more cars should be sent to the
Osterman company unless the
company would enter into contract
to permit the purchasing agent of the
railroad to buy the lumber. It was
about this time, it is said, that com-
plaints were made as to repairs, and
an investigation was begun which is
said to have resulted in the discovery
that certain Illinois Central em-
ployees held stock in the Osterman
Manufacturing company. Several are
said to have been discharged at the
time, and others, it is reported, sur-
rendered their stock.

THE CAUSE OF COLDS.

Good Advice Regarding the Prevention
of Coughs and Colds.

If people would only fortify and
strengthen the system, the majority
of cases of coughs, colds and pneumo-
nia might be avoided. These
troubles are frequently due to weak-
ness, which produces a catarrhal
condition of the mucous membrane,
which is an internal skin of the
body. When this skin is weakened
it becomes easily infected with
germs which cause many of the dis-
eases to which flesh is heir. Healthy
mucous membranes are essential
safeguards of the body's general
health.

An excellent aid in the prevention
of coughs, colds, pneumonia, and
such like infectious diseases, is a
remedy that will prevent or cure
catarrh.

We have a remedy which we
honestly believe to be unsurpassed
in excellence for the prevention of
coughs, colds and all catarrhal
conditions. It is the prescription of a
famous physician, who has an en-
viable reputation of thirty years of
cures gained through the use of
this formula. We promise to make
no charge for the medicine should
it fail to do as we claim. We urge
everybody who has need of such a
medicine to try Rexall Mucu-Tone.

It stands to reason that we could
not afford to make such statements
and give our own personal guaran-
tee to this remedy if we were not
prepared to prove the reasonableness
of our claim in every particular, and
we see no reason why any one
should hesitate to accept our offer
and try it. We have two sizes of
Rexall Mucu-Tone, prices 50 cents
and \$1.00. Sometimes a 50-cent
bottle is sufficient to give marked
relief. As a general thing the most
chronic case is relieved with an
average of three large bottles. You
can obtain Rexall Remedies in
Paducah only at our store.—The
Rexall Store—W. B. McPherson,
425 Broadway.

If more men of Mr. McLeod's dis-

TALK ABOUT FEET.

Troublesome Skin Affections Put to
Rest By Poslam.

A recent exchange of experiences
between ten persons developed the
fact that nine of them were suffering
from foot trouble which caused continual
annoyance and serious concern.
According to those who know, the
best thing to do when the feet are
tired, inflamed, itching, chafed, or
broken out is to apply a little poslam
and note how quickly the difficulty
will vanish.

Poslam is the new skin remedy
which so rapidly combats the worst
cases of eczema and all skin troubles,
stopping all itching with the first
application. It makes quick work
of acne, herpes, tetter, scaly scalp,
barber's and every other form of itch.
Occasional applications in small
quantities will quickly banish
pimples, hives, blackheads, blotches,
etc. A special 50c package of poslam
is prepared for those who use
poslam for minor skin troubles, and
this, as well as the regular two dollar
jar, is on sale at Gilbert's and R. W.
Walker Co.'s, as well as all drug
stores.

Sleuths Put at Work.

It was said that President Harahan
soon found enough to lead him to
believe the road was being defrauded
and upon his return laid the facts be-
fore Mr. Burns and at the same time
employed the detective agency to
make a thorough investigation. Seven-
ty-five sleuths were put to work on
the case. They visited many large
cities and it is said detectives were
given employment with the railroad
company and put to work in differ-
ent offices and departments where
they were able to watch certain sus-
pected persons. Reports were made
to headquarters each day and it was
practically admitted it was but a
short time before actual proof of a
conspiracy was found. It was then
Mr. Burns left for the south and other
cities. He refused last night to
give any particulars concerning the
case, but did not deny he had been
employed by the railroad and intimated
sensational developments might
be expected at any time.

"Is it true you have been investigating
an alleged conspiracy among
persons connected with the Illinois
Central railroad?" Mr. Burns was
asked.

"That fact seems to be pretty well
known," he answered.

Mr. Burns said no arrests had been
made and referred his interviewer to
President Harahan. President
Harahan refused either to affirm or
deny that there had been an investi-
gation. Attorney Blewett Lee and
other officials of the road refused
to discuss the case.

Employes Hold Stock.

In just what manner the fraud
was committed has not been learned,
but it is said to have been by means
of false bills, which were permitted
to go through the auditing department
either purposely or by carelessness
on the part of certain employees
and officials. President Harahan, it

DETECTIVES ARE

(Continued From Page One.)

President Harahan had suspicions
that all was not right. He left for
the east, but at the time denied he
was making a private investigation
or had any suspicion that a conspir-
acy or graft existed in connection
with the conduct of the road's affairs.
He again made denial upon his return.

Mr. Tate Sells Out.

Mr. O. A. Tate, the well known groceryman at 640 Broadway, has sold his grocery stock to W. G. Read & company. The deal was closed today and the consideration was private. The new owners will take charge tomorrow morning. Mr. Tate did not make his future intentions known, but says he will remain in Paducah for some time.

BLACK AND RICH.

Is the Way Postum Should Be.

A liquid food that will help a person break a bad habit is worth knowing of. The president of one of the state associations of the W. C. U. who naturally does not want her name given, writes as follows:

"Whenever I was obliged to go without coffee for breakfast a dull, distracting headache would come on before noon. I discovered that, in reality, the nerves were crying out for their accustomed stimulant.

"At evening dinner I had been taught by experience that I must refrain from coffee or pass a sleepless night. While visiting a physician and his wife I was served with a most excellent beverage at their dainty and elegant table and, upon inquiry, discovered that this charming beverage was Postum and that the family had been greatly benefited by leaving off coffee and using Postum."

"I was so in love with it, and so pleased with the glimpse of freedom from my one bondage of habit and so thoroughly convinced that I ought to break with my captor, that upon my return home I at once began the use of Postum and have continued it ever since."

"I don't know what sick headache is now, and my nerves are steady and I sleep sound, generally eight hours. I used to become bilious frequently and require physic; now seldom even have that experience."

"Say the time and money by taking N.Y.A.L.'S HOT SPRINGS BLOOD REMEDY. It is an efficient and reliable remedy for impure blood, scrofula, boils, pimples, salt rheum, tetter, eczema and all derangements of the blood and skin."

One Dollar

Is the price per bottle and we heartily recommend it.

GILBERT'S

Drug Store

Fourth Street and Broadway.

Both Phones 77.

"GET IT AT GILBERT'S."

IN SOCIAL CIRCLES

Jefferson School Entertainment. The entertainment given under the auspices of the improvement league of the Jefferson school, Eighth and Harrison streets, was a splendid success yesterday and is being repeated again this afternoon. Principal J. T. Ross' room is being used for the entertainment and it was taxed to its capacity yesterday afternoon. The drills, songs, recitations and plays were given yesterday. The receipts will be used by the league for the benefit of that school building.

The Sewing Bee. Miss Blanche Hills pleasantly entertained the Sewing Bee on Thursday afternoon with a thimble party at her hospitable home, 329 North Ninth street. After several hours of needle work, a delightful chafing dish luncheon was served. Those present were: Mrs. W. Carroll Latimer, of Atlanta; Miss Cain, of St. Louis; Miss Myrtle Decker, Mrs. Calhoun Rieke, Mrs. David Koger, Mrs. Andrew Campbell, Miss Sadie Paxton, Miss Helen Hills.

Miss McNichols Hostess to Mardi Club.

Miss Mabel McNichols, 1112 Monroe street, will entertain the Mardi Club on Monday morning at 10 o'clock instead of the usual Tuesday afternoon, owing to Miss McCandless' reception—linen shower to Miss Decker at that time.

Magazine Club Delightfully Entertained.

Mrs. Earl Palmer was the hostess of the Magazine club on Thursday afternoon at her home on Jefferson street. It was an especially delightful meeting of the club and a beautiful entertainment. The handsome home was attractively decorated with a profusion of dogwood blooms.

In addition to the club members there were a number of visitors present.

At the business session Mrs. Charles K. Wheeler, the president, announced the delegates to attend the State Federation of Woman's Clubs at Frankfort in May. Miss Helen Lowry was appointed as substitute for the president, with Mrs. Will Bradshaw, Jr., as alternate. Mrs. Armour Gardner is the delegate from the club and Mrs. Earl Palmer is the alternate.

The Stolgoft troupe have never been conquered and know no master save the chosen leader of their own particular clan. They have a love of wild adventure but are seldom willing to venture into civilization, but Mr. Sasse painted the new country of America to them in such golden colors and offered them a salary that simply seemed princely, and so they determined to come. It is doubtful if they will remain long for they are already pining for their wild, free life of their native mountains.

Norris & Rowe have put themselves under a heavy bond to return them to their native land at the expiration of the present circus season.

The exhibition given by the Stolgoft troupe is said to be wonderful and marvelous in the weirdness of their customs and ceremonies. The men are super-naturally strong. Their daring feats of expert horsemanship arouse the wildest enthusiasm.

The women play upon old musical instruments and are the most graceful dancers and acrobats this country has ever seen. Upon the elevated stage in the middle of the vast arena of the Norris & Rowe circus, the Stolgoft troupe perform a series of strange contortions. The acrobatic feature is mingled with the singing and dancing and while it is all new and strange to this country, it is graceful in the extreme. While the Stolgoft troupe is exhibiting everything else will come to a standstill, no other act being allowed to interfere with the full picturesqueness of it.

The costumes worn by the troupe are wonderfully beautiful. The act will be exhibited here when Norris & Rowe's circus comes, Wednesday, April 26.

Art Department Saturday Morning.

The Art department of the Woman's club will meet in regular fortnightly session tomorrow morning at 10 o'clock at the club building. The program will include a discussion of the Spanish artists Ribalta, Zurbaran and Valasquez.

Miss Madge King, of Brookport, Ill., is the guest of Miss Elsie Rehkopf, of Fifth and Monroe streets, for a week.

Mrs. Clarence Bennett, of North Sixth street, has returned from a visit in Fulton.

Engineer Mike Kelly and Mrs. Kelly will leave Sunday for Fancy Farm and Mayfield on a visit to relatives.

Mr. R. N. Sutherland left last night for Pomona, Cal., on a visit to his sister, Mrs. Will Engert.

Miss Elizabeth Dow, of Seattle, is visiting relatives in the city.

Col. Jerry M. Porter, of Clinton, Ark., who naturally does not want his name given, writes as follows:

"A delicious salad and ice course luncheon was served in an attractively appointed manner at the conclusion of the reports.

County Diplomas.

The state school superintendent will issue 32 county diplomas to pupils of the McCracken county schools. The diplomas have not been received by Superintendent Feeroz, but they are expected to arrive this week. As soon as signed by the county school superintendent and board of examiners, the graduates may call at the superintendent's office and get their sheepskins.

BLAKE AND RICH.

Is the Way Postum Should Be.

A liquid food that will help a person break a bad habit is worth knowing of. The president of one of the state associations of the W. C. U. who naturally does not want his name given, writes as follows:

Disease Germs Are Propagated by Scientists in Salves and Greasy Lotions

When a scientist wants to raise what he calls "a germ culture" he plants the germs in greasy lotions or vaseline, the base of salves. There they grow. Then how in the world can a germ disease like Eczema be cured by a salve or greasy lotion? These things may give temporary relief but in the long run they make a breeding place for the germs. They can't cure the trouble.

ZEMO

The Clean Treatment

is not greasy. It is just a clean, vegetable, liquid remedy for external use. It effects a cure by destroying the germs that cause the disease. Besides which it gives immediate relief from all itching, burning and pain. Splendid for Eczema, Tetter, Dandruff, Pimples, Blackheads and all diseases of the skin and scalp. Ask druggist for booklet "How to Tell Skin Diseases."

FOR SALE EVERYWHERE.

E. W. ROSE MEDICINE CO., 3632 Olive St., St. Louis, Mo.
In Paducah By W. J. Gilbert

FURNITURE SURGERY.

Would be a queer description for a business but it would cover ours nicely, for we go right down to the seat of the trouble when old furniture is put in our hands for repairs. Upholstering of the most durable and artistic kind is a prominent feature of our business—and we refurbish the wood parts so they look as if fresh from factory.

MIRRORS RE-SILVERED.

That's a new thing for Paducah, too; but we do it beautifully. Many a handsome old mirror is now on the scrap heap just because there was no one handy who knew how to fix it up. But we're here now.

NANCE & ROGERS

Sixth and Broadway

Weather cloudy and warm and business fair.

Heard on the Wharf.

No small amount of excitement was experienced by the crew and passengers on the Dick Fowler last night during the heavy windstorm. Just as the Dick backed away from Joppa and started for Metropolis the wind began blowing fiercely, but she fought the storm without having to go to the bank. Capt. "Buck" Roberts, her commander, says the lightning was the worst he has ever seen and at one time he and Capt. Austin Owen, in the pilothouse, were stricken stone blind by the glare. The boat arrived at 9:30 o'clock and this morning passed inspection by G. M. Green, one of the inspectors of Nashville. She left at 8 o'clock for Cairo and is due back tonight about 9 o'clock.

The Kentucky arrived at 7:30 o'clock this morning from Riverton, Ala. She was forced to tie up near Birmingham, Ky., last night and was delayed some time by the heavy wind. She left for Metropolis and will return here tonight. She brought 8 car loads of lumber.

The West Kentucky Coal company's fleet has moved across the Tennessee to Owen's Island and is connected with telephone service.

From Nashville the Nashville is due here tomorrow.

The south stage of the wharfboat is being repaired and teams are driving on and off on the north stage.

From Metropolis the Charles Turner arrived last night with a derrick and barge and left today for the Tennessee river to load logs.

The Russell Lord is due today from White river with a tow of ties for the Ayer & Lord Tie company.

The Harth, the West Kentucky Coal company's harbor boat, had her boilers cleaned this morning and the Hosmer, of the Ayer & Lord Tie company, did harbor work.

The American departed today for the Tennessee after ties.

No damage was done in the harbor last night although the wind was blowing furiously.

The precipitation here last night was 1.60 inches.

Four wharfboats and the steamers Tell City and Tarascon, of Louisville and Evansville packet company, were sold as a whole yesterday at Louisville. J. E. Lyons, of Higginport, Ohio, purchased the property for \$18,700. He announced no plans but said he made the investment because he thought it a good one. The sale was conducted by Receiver Charles Taylor under order of court by Judge Miller.

The towboat T. H. Davis passed inspection here yesterday and returned to Joppa, her home port.

Willie—Ma, can't I go out on the street for a little while? Tommy Jones says there's a comet to be seen.

Mother—Well, yes; but don't you go too near.—Boston Transcript.

SOFT WHITE HANDS

Assured by the Use of CUTICURA Soap and Ointment

These pure, sweet and gentle emollients preserve the hands, prevent redness, roughness and chapping, and impart in a single night that velvety softness and whiteness so much desired by women. For those whose occupations tend to injure the hands or who suffer from dry, fissured, itching, feverish palms and shapeless nails, with painful finger-ends, Cuticura Soap and Cuticura Ointment are wonderful.

Druggists everywhere sell them. If first package fails to benefit, your druggist will return your money.

MILES MEDICAL CO., Elkhart, Ind.

FREE TRIAL---FREE TRIAL

We do not want you to make a mistake when you buy a refrigerator. Remember our free trial offer on the HERRICK Refrigerator and take advantage of it.

Let us place a HERRICK in your home on trial—buy it on your own recommendation, not ours. If it is not what you think it should be telephone us to come and get it. It costs you nothing to try it.

Isn't it wonderful how an air tight refrigerator can keep dry inside; yes, so dry that matches, salt and Saratoga Chips stored on the shelves will never show the least trace of dampness. A wet rag hung from a shelf will dry within three hours, and water or milk spilled on the bottom will soon dry up.

On account of the cold dry air circulation in the HERRICK it is perfectly sanitary.

There are reasons for this circulation—no mystery. Come to our store and let us show you the HERRICK REFRIGERATOR iced up, and we will point out to you the exclusive and superior features over other makes of refrigerators.

The water cooling device in the Herrick Refrigerator cannot be equaled. The water tank, as you will see from the cut, is attached either from the top or side of the refrigerator and is on the outside. The water passes from this tank through a coil on which the ice rests, and is drawn from the faucet at the side of the refrigerator, ice cold. The water does not come in contact with the ice at all, therefore, it is not tainted with ammonia as water usually is when the ice is put in the water.

The HERRICK Does Not Cost Any More Than The Inferior Makes of Refrigerators.

See the HERRICK
Iced up in our
Window.

Watch This Spot

THE SMOKE HOUSE

Livestock.

Louisville, Ky., April 15.—Receipts 907-head; for the four days, 2,846. The market opened unevenly lower, selected heavy and medium weights, 165 lbs. and up, selling at \$10.05; light shippers, 130 to 165 lbs., \$10.05. Pigs ranged from \$8.30 to \$9.65. Roughs, \$9.25 down. The pens were fairly well cleared and the market closed about steady.

Cattle.

The receipts for the day were 115 head; for the four days 1,250. The market ruled light, limited to the local butchers and buyers. There was a good demand for the best heavy weight butcher cattle. Good stockers and feeders at steady prices. Common and inferior kinds slow to shade lower. Best bulls steady. Canners and cutters slow to shade lower. Milk cows unchanged. No heavy cattle here; feeling easy. Pens fairly well cleared.

Sheep and Lambs.

Receipts 14 head; for the four days, 374. The market ruled quiet. There was a good demand for best fat sheep and lambs; not enough coming to supply the demand. Best fat sheep 6@7c; best fall lambs 5c lower. Common sheep and trashy cul lambs slow sale.

St. Louis—Cattle.

Receipts 2,200 market steady; native beef steers \$6.70@8.50; calves in carload lots \$3.50@8.25. Hogs—Receipts 6,500 market 10¢ lower; packers \$3.80@10.10; butchers and best heavy \$4.95@10.15. Sheep—Receipts 1,200; market lower; native muttons \$7.50@8; lambs \$8@10.50.

Tobacco Market.

Louisville, Ky., April 15.—The offerings on the local breaks follow: Burley, 152; dark, 226; original inspection, 283; reviews, 96. Total, 378. Rejections, 63.

The Louisville house sold 8 hds. dark at \$5.05 to \$8.50.

The Dark house sold 70 hds. dark at \$4 to \$12, with five rejections.

The Central house sold 15 hds. burley at \$10.50 to \$15.75, and 3 hds. dark at \$6 to \$7.50, with one rejection.

The Farmers house sold 60 hds. burley at \$9.50 to \$17.75, and 15 hds. dark at \$5.40 to \$11.25, with five rejections.

The Home house sold 33 hds. of dark at \$5.35 to \$6.70.

The State house sold 12 hds. of burley at \$6.30 to \$12.25, with five rejections.

The Pickett house sold 16 hds. burley at \$10 to \$16.75 and 20 hds.

UP TO CHILDREN

THEY MAY SOLICIT FUNDS FOR HIGH SCHOOL GYM.

Committee of Commercial Club Canvasses Possibilities of the Situation.

It is up to the people if a gymnasium for the school children is built. The special committee from the Commercial club met last night at the Palmer House and it was agreed that a public subscription was the only available means of raising the money. All the members of the committee favored the gymnasium.

It was considered impracticable for the Commercial club to bear the expense of the gymnasium, while equally at a disadvantage would be the canvass made by the committee. Carnagey said that a

MOTHER'S FRIEND

A LINIMENT FOR EXTERNAL USE.

Baby's coming will be a time of rejoicing, and not of apprehension and fear, if Mother's Friend is used by the expectant mother in preparation of the event. This is not a medicine to be taken internally, but a liniment to be applied to the body, to assist nature in the necessary physical changes of the system. Mother's Friend is composed of oils and medicines which prepare the muscles and tendons for the unusual strain, render the ligaments supple and elastic, aids in the expanding of the skin and flesh fibres, and strengthens all the membranes and tissues. It lessens the pain and danger at the crisis, and assures future health to the mother. Mother's Friend is sold at drug stores. Write for our free book, containing valuable information for expectant Mothers.

A New Clothing Store

Yes, a NEW store in all the outward essentials. New stocks, new fixtures, new in every respect but the time-tried old HARBOUR policy, which is: "MAKE GOOD OR GIVE THE MONEY BACK WITHOUT A QUESTION."

We cling to that as a nation to its flag, for it is the symbol of our success; it tells, in a phrase, why we have made good so largely.

The new clothes we are telling you about are

Griffon Clothes At \$15

They're the best value at anything like the money we have ever seen—the best you have ever seen, too. Every thread in them pure WORSTED—not just "all-wool," mind you, for that means comparatively little. Worsted is woven from the pick of the product. It means that the longest, strongest fibres are chosen for the cloth—and that means you get substantial WEAR for your money. Handsome styles, too. Nifty enough for the young fellows and quiet enough for their elders. Next suit should come from

ANNOUNCEMENT

We wish to inform the people of Paducah and surrounding territory that having purchased from Louis Pollock the jewelry stock and fixtures at 408 Broadway, we shall continue the business at the same stand. We have placed in charge as manager Sam DeMeyer, of Fulton, Kentucky, a thoroughly practical watch maker and jeweler; and everything sold and repaired at 408 Broadway is guaranteed by the Eye See Jewelry and Optical Co., incorporated. We wish to further announce that we will carry a complete stock of second-hand Typewriters and Typewriter Supplies. We now have the most complete stock of Ribbons, Carbon Paper, etc., ever carried in Paducah. In addition we have placed a competent repair man in charge of the typewriter department. When you want a GOOD RIBBON call 1228-R, old phone. We are satisfied we can supply any make of ribbon, and every ribbon we sell has a positive guarantee to be the best made OR MONEY REFUNDED. Ask for one of our COUPON BOOKS. We expect to see you and supply your needs.

Remember the number—408 Broadway. Old phone 1228-R. Our store at 315 Broadway, under the management of J. A. Konetzka, will be responsible for everything sold and repaired at 408 Broadway.

Yours to Please,

Eye See Jewelry and Optical Co.

815 Broadway. 408 Broadway.

U. C. V. HONORS DEAD.

Clement A. Evans sends out General Order.

New Orleans, April 15.—By command of Gen. Clement A. Evans, commander-in-chief of the Confederate Veterans. Gen. William E. Mickle, adjutant-general and chief of staff, issued the following general order: "The general commanding announced that after the convention to be held in the city of Mobile is fully organized for business on the second day, April 27 instant, exactly at high noon, in accordance with the custom which was reached at the Charleston union and which has since been rigidly observed, memorial services

ack to the Old Stand

Horse Shoeing and General Blacksmithing

Forging, Stumbling, Knocking and all faulty truing in horses corrected. Saddles, Harness, Horses a specialty. Light work especially solicited. All work guaranteed.

Henry Greif

Old Phone 764-R.

will be held for one hour. At that moment the convention will suspend business for this sacred purpose, without further notice and without regard to what is then taking place, and the flags will be draped in mourning as a mark of respect to the memory of the beloved and only daughter of the Confederacy, our commander-in-chief, zealous chaplain general and of all our comrades who have preceded us into eternity. In order to make the service more impressive and enlist the interest of all, the ladies of the Confederate Southern Memorial Association will have no separate exercises, but will join with the veterans.

The number of our dead has been greatly augmented during the past year by the following distinguished leaders:

"Maj. Gen. Robert Lowry, brigadier general, C. S. A., and commander Mississippi division U. C. V.; Mrs. J. Addison Hayes, daughter of our only president; Maj. Gen. Zimmerman Davis, commander South Carolina division, U. C. V.; Maj. Gen. Paul A. Fusz, ex-commander Northwest division U. C. V.; Brig. Gen. E. G. Willard, assistant quartermaster general U. C. V.; Col. J. B. Cowan, M. D., assistant surgeon general U. C. V.; Col. R. E. Park, aide on staff of commander-in-chief."

She (on liner)—So you've crossed the ocean quite often.

He—Hundreds of times. Why, do you know, I actually recognize about half the waves we meet.

She—Indeed! By their crests, I suppose.—Boston Transcript.

Harvey D. Goulder Accused of Dodge to Avoid Going Back on Associates in League.

WAS THE FORMER PRESIDENT.

Washington, April 14.—"You dodged to avoid going back on your associates of the Merchant Marine League of the United States," was the thrust passed to Harvey D. Goulder of Cleveland, Ohio, former president of the organization, by J. H. Ralston, attorney for Representative Steener, at today's ship subsidy investigation.

Mr. Goulder, William Livingston of Detroit, Mich., and Second Assistant Postmaster General Joseph G. Steward were today witnesses at the select committee's inquiry into the charges that the league had reflected upon the integrity of Mr. Steener and other members of congress in connection with ship subsidy legislation.

Mr. Goulder testified he had endorsed a note for \$5,000, which he had placed in a bank to the credit of the league, that he did not know the source of the note, whether it came from membership due or whether it came from the officers of the league themselves. His memory was hazy but he thought the note might have been put up in the bank to anticipate the membership dues, so as to have credit to meet expenses.

The officers and members of the league, Mr. Goulder insisted, in urging legislation for the encouragement of the merchant marine were actuated by purely patriotic motives and for the country's welfare.

The witness admitted he had some savings invested in lake vessels engaged in general traffic. He is attorney for the Lake Carriers' Association, representing more than sixty per cent of lake traffic.

Mr. Goulder said he had no reason to believe that congressmen had been subsidized, such matters had never entered his head.

He said he had no reliable information about ships having been built at Cleveland for Pacific ocean service and when asked if that could not be repeated, he said he had heard a ship builder say that it was impossible.

Representative Kustermann of Wisconsin also mentioned in connection with the published attacks, produced the witness. He asked if he did not know that the league opposed everything that did not contemplate a subsidy. Goulder replied that he did not recall.

Goulder Indignant.

Of the other witnesses Mr. Livingston denied that the league was an organization of interested persons, so far as any expectation of pecuniary profit was concerned. It was sheer patriotism. Mr. Stewart discussed data as to ocean steamship lines.

Just before the committee adjourned until tomorrow, Attorney Ralston stated his belief that a large number of the officers of the league are directly interested in the passage of the ship subsidy bill by reason of their business connections.

"Mr. Goulder," he said, "had avoided going back on his association by not making frank disapproval, which was his duty to make. With such charges made, he should either avow or disavow. He dodged."

Mr. Goulder indignantly replied he had not dodged and did not even know what the charges were.

Money Comes in Bunches to A. A. Chisholm, of Treadwell, N. Y., now. His reason is well worth reading: "For a long time I suffered from indigestion, torpid liver, constipation, nervousness and general debility," he writes. "I couldn't sleep, had no appetite, nor ambition, grew weaker every day in spite of all medical treatment. Then used Electric Bitters. Twelve bottles restored all my old-time health and vigor. Now I can attend to business every day. It's a wonderful medicine." Infallible for Stomach, Liver, Kidneys, Blood and Nerves. 50c at all drug-gists.

Mississippi Hospitality.

"Mississippi is full of characters like Senator Gordon," said J. C. Lowry of New Orleans. "The men are gentlemen of the old school, of the era before the war, when every planter in the state who owned slaves rolled in wealth and lived like a lord. These conditions bred a race of men who never will be surpassed for hospitality and courtesy."

"In almost any part of Mississippi, in the country districts, it is the custom of travelers to stop at the dinner hour at the first plantation they come to. Even if a perfect stranger to the planter, the traveler knows that he will be received as an honored guest, his horse fed and taken care of by the numerous darkies around the place, and himself regaled with the best that the wine cellar and the planter's table afford. He always is pressed to stay for supper and the night, and when he departs the planter and every member of his family is genuinely sorry that the guest will not stay longer. The hospitality is unbounded. Nothing is too good for the stranger!"—Washington Post.

METHODISTS PLAN MERGER.

Southern and Northern Church Representatives Meet in Cincinnati.

Cincinnati, O., April 1.—Six bishops, six ministers and six laymen delegates representing the Methodist Episcopal church, North and South, are gathering in Cincinnati. These eighteen men will tomorrow begin sessions that are designed to arrange a plan for a federation that will include more than 5,000,000 Methodists in its membership.

A Methodist federation of Northern and Southern Methodists, talked of for years, seems now to be nearer achievement than at any time since the Methodist Church South, became a separate organization.

Bishop E. E. Hoss, of Nashville, Tenn., who addressed the Evangelical Alliance, was the first of the southern bishops to arrive. Bishop James Atkins, of Waynesville, N. C., and Bishop A. W. Wilson, of Baltimore, are the other southern bishops to attend, while the bishops for the church north are Bishops John M. Walden and Earl Cranston, already in Cincinnati, and Bishop L. B. Wilson, who is coming on from Philadelphia.

It's a Top Notch Door.

Great deeds compel regard. The world crowns its doers. That's why the American people have crowned Dr. King's New Discovery the King of Throat and Lung remedies. Every stomp is a health force. It kills germs, and colds and grippe vanish. It heals cough-racked membranes and coughing stops. Sore, inflamed bronchial tubes and lungs are cured and hemorrhages cease. Dr. George More, Black Jack, N. C., writes "it cured me of lung trouble, pronounced hopeless by all doctors." 50c. \$1.00. Trial bottle free. Guaranteed by all druggists.

Broken Vows.

"Jeddy," said the early visitor, who was waiting at the lawyer's door, "I wants to ax you sompin'. Befo' my wife married me she said time an' agin dat she wouldn't hab me on no conditions."

"Well, she changed her mind, it appears."

"Yessuh. An' what I wants to know is, kin I have her arrested fuh false pretenses?"—Washington Star.

Frightful Fate Averted. "I would have been a cripple for life from a terrible cut on my knee cap," writes Frank Disberry, Kellie, Minn., "without Bucklin's Arnica Salve, which soon cured me." Infallible for wounds, cuts and bruises, it soon cures Burns, Scalds, Old Sores, Bolls, Skin Eruptions. World's best for Piles. 25c at all druggists.

The trouble with the unexpected is that it too often refuses to happen.

How a Frenchman "Speaks." Watch two men in a restaurant, if they are English, they may be engaged in conversation during the whole of the meal. But it is a quiet, well ordered dialogue, nothing of which reaches those at the next table, and the conversation is not allowed to interfere with the business in hand, which is eating. Suppose, however, that two Frenchmen are lunching together. Whenever of the two is doing the talking soon lays down his knife and fork. How can he explain to his vis-a-vis what happened unless he has his hands and arms free, unless he acts the story? And he always acts it well. I confess I like to hear—and see—a Frenchman tell a story. It is as good as a play, it is better, for it is natural. He leaves out nothing; you get the words, the expressions, the movements of the person concerned, and if there are several persons, the raconteur acts them all with equal skill. When an Englishman is asked to sing or recite before strangers, his first impulse is to decline. His natural timidity, his disinclination to show off, his reluctance to "play the actor," all tend to make him keep his seat. But if a Frenchman is requested to "contribute" a musical or dramatic selection, or to make a speech, it is rare to find him refuse. Why should he? He has been taught from his childhood that to sing and act and orate are as natural as taking his meals or drinking a glass of wine, and he has no difference to contend with. He is a born actor.—Paris Correspondence London Globe.

The Bed-Rock of Success lies in a keen, clear brain, backed by indomitable will and resolute energy. Such power comes from the splendid health that Dr. King's New Life Pills impart. They vitalize every organ and build up brain and body. J. A. Harmon, Laramore, W. Va., writes: "They are the best pills I ever used." 25c at all druggists.

The salt pans at Kwang-Yang Bay near Chinanpo, were reclaimed in 1909, and the actual production of salt will begin in May, 1910. The area of pans now ready for use there is 147 acres.

"I've written our congressman not to send me free seeds this spring." "Don't want them, eh?" No, I've asked him to send me a setting of Plymouth Rock eggs instead."—Detroit Free Press.

**Home Course
In Live Stock
Farming****VIII.—Managing the Dairy
Farm.**By C. V. GREGORY,
Author of "Home Course in Modern
Agriculture," "Making Money on
the Farm," Etc.Copyright, 1909, by American Press
Association.**W**HEN properly carried on
dairying is one of the most
profitable branches of live
stock farming. The work is
somewhat confining, but that is not a
serious objection as long as the profits
keep coming in. As shown in article 3,
dairying removes less fertility from
the farm than any other branch of
live stock farming. Dairying is adapted
to many localities where general
farming cannot be carried on. Low,
wet land or too hilly to be culti-
vated can be profitably utilized as
pasture for dairy cows. There is lit-
tle danger of the dairy business being
overdone. As population increases,
the demand for dairy products becomes
greater. The dairy cow produces food
more economically than any other
class of farm animals.In starting in the dairy business the
type of cow to select will depend
largely on conditions. For the gen-
eral farm, where dairying is more or
less of a side issue, the dual purpose
cows have many advocates. They give
a fair amount of milk and produce
calves that feed into satisfactory beef
animals. The worst trouble with dual
purpose cows is that they cannot be
bred true to type with any degree of
certainty. Once in awhile an extracow should always be dried up at
least three weeks before calving,
even if she is still giving a consider-
able quantity of milk. She will come
through the ordeal of calving in enough
better shape to make up for the milk
lost. A day or two previous to calving
she should be shut up by herself
somewhere and given loosening and
cooling feeds, such as bran mashes
with a little oilmeal added. Some
one should always be with the cow
when she calves in order to render any
assistance that may be necessary,
though if the cow is in good health
she will usually have no difficulty.
The worst trouble to which highly
bred dairy cows are subject is milk
fever, which is described in article 5.
The calf should be given the first
milk, as this will start its digestive
system to working. The milk will be
all right to use in four or five days
if the cow is not sick. Until that time
the calf may be allowed to suck.

Disposing of the Calves.

The question of what to do with the
calves is an important one on the dairy
farm. The heifers should generally be
saved, as some of them will be needed
to replace some of the cows in the
herd, and the others can be readily sold
at good prices. Probably the best way
to dispose of the bull calves is to veal
them. After they are from ten days to
two weeks old they should be changed
to skimmed milk gradually, taking two or
three days to make the complete
change. It will not be long after this
until they will begin to eat a little
cornmeal, if it is given after they have
had their milk and are looking for
something to suck. The meal may be
increased in amount slowly, being care-
ful not to feed more than they will eat
up clean.The care and feed of the heifer
calves which are to be kept for cows
should be much the same as advised
for steer calves in a preceding
article, except that the grain ration should
consist of oats or bran instead of corn.
The heifers should be kept growing
well, but should not be given fattening
feeds or feed of any kind in large
enough quantities to cause them to be-
come fat. If the tendency to lay on
fat is developed in a heifer she is liable
to continue to fatten after she is
grown.In the case of calves get to scouring, a
little blood meal put in the milk will
stop it. The amount of milk should
never be more than eight to ten quarts
a day. Most of the failures in raising
skimmed milk calves are caused by feeding
too much milk or by putting grain
into the milk. Plenty of clover hay
should be kept where the calves can
get at it. Fed in this way, they will
make profitable veal at from eight to
ten weeks of age.In order to tell just which cows are
the most profitable it pays to keep
record of them. The most practicable
way to do this is to weigh the milk
for six consecutive milkings once a
month at the same time each month.
Multiplying the average of these six
weights by the number of days in the
month gives the amount of milk pro-

duced.

The capacity of the cow is of two
kinds, digestive and milk producing.
She must have good digestive capacity,
as shown by a long, deep, roomy
barrel, in order to be able to handle
the amount of feed necessary to furnish
material for a large milk yield.
Milk producing capacity is indicated
by a large, well balanced udder, ex-
tending well forward and well up be-
tween the legs behind. The veins
which run forward from the udder
should be large and twisted, as this
is an indication of a large milk flow.
Some cows have a digestive capacity
too large for their milk producing ca-
pacity, while some are the other way.
The most economical producer of milk
is obtained when these two are bal-
anced. The teats should be long and
well placed for convenience in milking.By far the most important point in
selecting a cow is her performance
record. This shows just how much
milk and butter she can produce in a
given time. Directions for testing
cows will be given later.The pedigree of a dairy cow is val-
uable mainly for the performance re-
cords of her ancestors. The record of
her grandmother on her sire's side is
especially important, as a good cow
is more liable to transmit her qualities
through her sons than through her
daughters.Another point that should not be neg-
lected, especially if milk or cream is
being sold, is buying cows subject to
the tuberculin test. It is definitely
known that tuberculous cows can be trans-mited from cows to man through the
milk. It will pay to keep only cows
that are known to be free from dis-
ease. In the hands of an experienced
veterinarian the tuberculin test can be
relied on to give satisfactory results.**Selecting the Bull.**The selection of a bull to head the
herd is of great importance as the
selection of the cows. The main
points to look for in a dairy bull are
quality, constitution and roominess of
barrel. He should be of good disposition,
but should show plenty of masculinity
in a strong head and a thick crest.
A bull that looks like a cow will not have the ability to reproduce
his good points in his offspring with
any degree of certainty. The bull's
pedigree is also important. The records
of his mother and other female
ancestors are very good indications of
the inherent milk producing qualities
that he possesses.In most cases it pays to breed dairy
cows for fall calving. The greatest
milk flow will then come in the winter,
when there is no field work to do.
Then when grass comes the milk flow
is stimulated, and the cow is kept up
to her maximum production for the
longest possible time. When cows that
calve in the spring are put on dry feed
in the fall the milk yield is reduced
and the total yearly product lessened.The cow should always be dried up
at least three weeks before calving,
even if she is still giving a consider-
able quantity of milk. She will come
through the ordeal of calving in enough
better shape to make up for the milk
lost. A day or two previous to calving
she should be shut up by herself
somewhere and given loosening and
cooling feeds, such as bran mashes
with a little oilmeal added. Some
one should always be with the cow
when she calves in order to render any
assistance that may be necessary,
though if the cow is in good health
she will usually have no difficulty.
The worst trouble to which highly
bred dairy cows are subject is milk
fever, which is described in article 5.
The calf should be given the first
milk, as this will start its digestive
system to working. The milk will be
all right to use in four or five days
if the cow is not sick. Until that time
the calf may be allowed to suck.**Selecting the Cows.**The question of what to do with the
